## **PROJECTS FOR 2013**

**PALESTINE**

**URUGUAY**

**CUBA**

## **PALESTINE: (January 2013)**

**Coordinators: Abdel Hadi Abu Khousa, Ursula Hauser, Maja, Hess**

- ***PUBLICATION OF THE BOOK ABOUT THE PSYCHODRAMA GROUP WORK IN GAZA (Project supported by the NGO 'medico international Switzerland')***

Our group 'Gaza Psychodrama Group Without Borders' has already written their papers about the group work with Psychodrama, which they have realized during last years; the material is ready in arabic language with an abstract in english; this is a pioneer work in the arabic speaking world! What is missing in order to publish it, is the necessary money.

## **URUGUAY: (May 2013)**

**Coordinators: Ursula Hauser and Emiliano Grieco Llado**

- ***BEGINNING OF THE INVESTIGATION IN THE FIELD OF: 'CONSECUENCIAS OF THE DICTATORSHIP FOR THE THIRD GENERATION'***

This is a project with grandchildren of the Tupamaros and the FRENTE AMPLIO activists in the 70ies, and we shall work with Psychodrama. We want to transform the young people into conscious protagonists of their history and elaborate through their subjective construction what they know about their grandparents, and what was 'forgotten', lost – caused by the forced silence during the dictatorship in Uruguay (1973-85). In this present time when the Tupamaros are the Government of Uruguay, we have all doors open for this investigation, which can be widened afterwards (on a national frame, linked to the University of Montevideo). We want to create a model of an international investigation with Psychodramatists about this theme, which can be used in different countries as a part of the NETWORK PSYCHODRAMA SOUTH-SOUTH. The base of Psychoanalytic Theory and Psychodrama Method allows us to deepen the knowledge about the history of the last three generations.

## **CUBA: (September 2013)**

**Coordinators: Guillermo Arias and Ursula Hauser**

**- PROJECT OF AN INTERNATIONAL MASTER PROGRAMM IN  
'PSYCHODRAMA AND GROUP PROCESSES' IN CUBA**

We plan to realize for the year 2014 a innovative and unique version of the Master Programm at the University of La Havana, which is going on since 2007. The training of the cuban professors was supported by the NGO `medi-cuba Switzerland` during 1996-2009, now the money is missing in order to continue the training, and to realize the mencioned project which is very outstanding. Already 25 students are inscribed for the project from different countries, mostly from Latinamerica. The programm is an intense study of PSYCHODRAMA on a theoretical level as well as in self experience and lasts for 6 months, meanwhile the students live and study together in Cuba. Afterwards they can realize their own groupwork and the final Theses in their own countries, acompained and supervised by Psychodramatists with a academic title. For this project we need the financiation for the cooperating Psychodramatists from Latinamerica.

***If you are interested in one of these projects and are willing to help to realize it, please name it (Palestine, Uruguay, Cuba) when you transferre the money to the following account:***
